PROFESSIONAL SUMMARY

Driven and self-motivated web developer with a genuine passion for coding and a keen interest in technology. Thrives in collaborative environments, working alongside smart and motivated individuals on intriguing projects. Possesses a strong foundation in JavaScript and its frontend tools, always seeking opportunities to learn and enhance project impact. While having garnered experience in backend and mobile development, I gravitate towards frontend work where my passion lies, consistently pushing the boundaries of JavaScript's creative possibilities.

EXPERIENCE

SABBATICAL YEAR -- Nov 2022 - Dec 2023.

- Dedicated time to personal development.

FRONTEND DEVELOPER, KAFE ROCKS LTD -- Dec 2021 - Oct 2022.

- Key contributor in a small, collaborative team of three, actively involved in crafting a website using Next.js.
- Focused on refactoring and performance optimization, implementing agile methodologies, and enhancing SEO.

Technologies: *NextJs, Typescript, Tailwind.*

SOFTWARE ENGINEER, SUGAR CAP LTD -- May 2021 - Nov 2021.

- Spearheaded the complete reconstruction of the product portal as the sole Frontend Developer.
- Successfully navigated the rebuilding process from inception to completion.

Technologies: *JS, React, Redux, Typescript.*

SOFTWARE ENGINEER, MASSIVE INTERACTIVE INC -- Jan 2017 - April 2021.

Played integral roles in Android, Backend, and Frontend development for Video on Demand applications.

- **Android Development** (Jan 2020 - April 2021):
 - Contributed to the Video on Demand application development for Sinclair.
 - Implemented brand new features and redesigned the application to match client needs.
- **Backend Development** (Aug 2018 - Jan 2020):
 - Developed and maintained microservices for Dazn.com, replacing legacy code and implementing new features.

- **Frontend Development** (Jan 2017 - Aug 2018):
 - Developed Video on Demand applications for various end clients.
 - Responsible for developing new features into Massive's 'Axis' VOD product.

Technologies: *React, Redux, TypeScript, Webpack, CSS3/Sass, Node.js, AWS, Terraform, Docker, Android, Java, Kotlin.*

WEB DEVELOPER, COHAESUS PROJECT LTD -- Sep 2013 - Dec 2016.

Contributed significantly across various roles during my tenure at Cohaesus, transitioning from Trainee Web Developer to Midweight Web Developer.

- Led greenfield projects both in-house and externally, supporting agencies such as VML, VCCP, BBD, and Oliver.
- Developed for top UK agencies, honing expertise in various web technologies.
- Acquired a diverse skill set as a Trainee Web Developer, managing projects administratively and overseeing teams for various clients.

Technologies: *HTML5, CSS3/Sass, JS, Grunt, Gulp, Handlebars, D3.js, Knockout.js, Unity, Fabricator, Harp JS, and DoubleClick.*

EDUCATION

Tower Hamlets College, Art & Design Access Diploma, Design for the Web - Web Standards -- Sep 2012 - Jul 2013.

CERTIFICATIONS

- **O'Reilly School of Technology Certificate for JavaScript - JSON and AJAX -- May 2015.**
- **O'Reilly School of Technology Certificate for JavaScript - An Intro Course -- Feb 2015.**
